

HAWKQUEST

Wednesday, July 26th @10am

Birds of Prey Lecture (all ages)

This one-hour program, which is tailored to the age and experience of the audience, includes a Bald or a Golden eagle, an owl, a falcon, and features a free-flying hawk. Students learn about the importance of different raptor species, their specially-adapted tools, and their role in our ecosystems.

In this participatory program, students are able to observe the unique tools of the owl, the incredible talons and six-foot wingspan of the eagle, the aerodynamic features of the falcon, and the precision flying of the hawk.
